Three Iconic Events in one Place

buildlec

A Unique Exposition on Building Electrical Systems
upto 1KV

intellect

Intelligence Electrified

distribulec

India's only exhibition on Hi-Tech Power Distribution
from 11KV till 33KV

16-18 January 2024

Bombay Exhibition Centre, Mumbai, INDIA

Indian Electrical & Electronics Manufacturers' Association
Established in 1948

India and many other developing countries are expanding and improving their distribution network to supply 24x7 power to their citizens.

Growth in load and distributed generation brings new challenges for distribution network. Utilities are also deploying state of the art technologies to improve quality and reliability of supply and also reduce losses. These challenges can be overcome only with the amalgamation of electrical equipment and digital network technology.

DistribuELEC 2024

6th edition of an exhibition designed to bring Power Distribution stakeholders – DISCOM, Consumer, Electrical Operational Technology (OT) and Information Technology (IT) – on one platform to conduct business.

BuildELEC 2024

A concurrent exhibition planned to showcase electrical systems at consumer dwellings i.e. buildings - commercial and residential, more efficient and safe.

Intelect 2024

Concurrent conference in its 6th edition.

distribulec
 India's only exhibition on Hi-Tech Power Distribution

India's only Exhibition on Hi-Tech Power Distribution, showcasing products, technologies and services from 220V till 33KV in traditional electrical equipment like transformers, cables, capacitors, switchgears, meters, insulators, conductors and new age technologies in distribution automation & control systems, energy efficiency, demand response, advanced metering, communications technologies, cyber security, electrical fire safety and more.

This is a huge opportunity for the manufacturers of electrical equipment and technology providers to showcase the solutions which can help in Outage Management, Demand Management, Metering, MicroGrid, Storage, Sub-Station and Feeder Automation etc.

VISITOR PROFILE

The show will attract a host of serious decision makers from across all segments, to source new and innovative product and service solutions, stay in touch with the latest trends, network and do business.

Buyers

Public and Private Sector Utilities (DISCOMs)

EPC & Project Developers

Electrical Contractors

Bulk users such as:

- Industry
- Railways, Metros, Freight Corridors
- Defence
- PWD and Municipal Corporations

OEMs

Raw Material Suppliers

System Integrators

Vendors/ Sub Vendor

Renewable Energy (solar, solar PV, wind, biomass, small hydro)

Institutions

Central Govt. Ministries – Power, Urban Development, IT, Communication & MNRE among others

State Government – Power and Energy Departments

BIS, CEA, ICAI

Testing House & R&D Institutions

Consultants

Electrical Inspectorates

Engineering Institutions

EXHIBITOR CATEGORIES

ELECTRICAL EQUIPMENT

- Cable & Cable Accessories
- Capacitors
- Conductors & Conductor Hardware & Accessories
- Control Panels
- Energy Meter
- Industrial Control & Automation System
- Instrument Transformers
- Insulators & Insulating Materials
- Relays
- Switchgear
- Substation and Equipment
- Transformers

TEST & MEASUREMENT EQUIPMENT

- Cable Fault Locating Systems
- Calibration Equipment
- Electrical Testing Equipment
- Transformer Testing Equipment

DISTRIBUTED ENERGY RESOURCE

- Energy Grid Integration
- Energy Storage
- EV Charging Infrastructure
- Microgrids
- Renewable Energy Equipment
- Solar Inverters

DISTRIBUTION AUTOMATION

- AC/DC, DC/AC, DC/DC Converters
- Asset Management System with Sensors, DCUs etc.
- Auto Reclosures
- Circuit Breakers
- Control Systems
- Controls Panels/Components
- Data Acquisition Systems
- Data Analytics
- Demand Response Services
- Distribution Automatic Equipment
- Distribution Management System
- Energy Management Systems
- Fault Current Limiters
- Harmonic Measurement Equipment
- Leak Detectors
- Load Management Systems
- Outage Management System
- Ring Main Units (RMUs)
- SCADA

buildlec
A Unique Exposition on Building Electrical Systems

A concurrent event to showcase electrical systems for future building comprising of H3O – homes, hospitals, hotels & offices to generate, measure and manage their energy usage without compromising with comfort of living.

Future Buildings being the major consumption center of electricity, this event will be an exclusive platform for exhibiting conventional and smart electrical technologies and equipment to make buildings safer, efficient and intelligent structures.

VISITOR PROFILE

Architects & Interior Designers
Building Planners, Real Estate & SEZ Developers
Building Authority & Technology Service Providers
Building Maintenance professionals
Building Owners & Management
Central & State Public Works Departments
Chief Fire Officers
Civil & Electrical Engineers
Distributors, Electrical Traders

Design Studios & Consulting Companies
Electrical & Civil Contractors
Facility Management Professionals
High Net Worth Individuals
Industrial Users
Large Facilities (Hotels/Malls/Hospitals/Airports)
Surveyors
Systems Integrators

EXHIBITOR PROFILE

MEDIUM & LOW VOLTAGE PRODUCTS

- Switches, Switchgear
- Earthing, Lightning, Protection, Excess Voltage Protection
- Cables & Accessories, Cable Routing Systems
- LED and other light sources, Smart and decorative lighting
- Switches and Protection Devices
- LT Transformer
- Capacitors, APFC Panels, Active Harmonics Filters

BUILDING AUTOMATION

- Building Automation Systems & Products
- Building Efficiency & Energy Management Systems & Products
- Building Security Systems & Surveillance
- Light Control Systems, Light Management & Light Measurement
- HVAC
- Smart Sensors
- Smart Switching & Protective Devices
- Smart Metering, Monitoring & Measurement
- Smart Surveillance Systems
- Systems Integration

FIRE SAFETY

- Arc - Flash Detectors & Protection Relay
- Cable Lugs
- Earth Electrode
- Fire Retardant Cables & Wires
- Fire Alarm Systems
- Fire Detection & Suppression Systems
- Flame Proof Equipment like Starters, Push Buttons, Motors
- Heat & Smoke Detectors
- RCC-Residual Current Circuit Breakers
- Spark Detectors

BUILDING UTILITIES

- Elevators & Escalators
- Green Energy – Solar Rooftop
- Batteries and Inverters
- EV Charging Infrastructure
- HVAC, Precision Air Conditioning
- IoT, Smart Tech
- UPS

intelect
Conference on Intelligent Electricity

A conference on Intelligent Electricity Distribution and consumption. The conference will explore the role of utilities in changed policy scenario, role of prosumers, emerging markets, making power sector green and sustainable by reducing carbon footprint. The first edition of Intelect conference was held in 2015 and since then the conference has evolved catering to the diversified themes like Intelligent Electricity,

The conference will be co-located with the Distribuelec and Buildelec, India's only exhibition on Hi-Tech power Distribution and Building Electrification Segment.

KEY ATTRACTION

BUYER SELLER MEET

DBSM 2024

Domestic Buyer Seller Meet (DBSM) - 100+ hosted buyers from Indian DISCOMs, EPCs and other Non Utility segments .

RBSM 2024

Reverse Buyer Seller Meet (RBSM) - Selected 200 hosted international buyers representing Distribution Utilities, EPC Contractors and Buyers.

Target Countries:

Africa, ASEAN, CIS, Europe, Middle East, South Asia

STARTUP PAVILION & AWARDS

The Pavilion will feature Startups showcasing pioneering work in the New Energies domain. Startups award would be an added attraction

TARIFF

Exhibitor Tariff - Distribuelec & Buildelec 2024							
Category of Exhibitor	Bare space minimum 24 Sqm				Shell Space minimum 9 sqm		
	With open sides				With open sides		
	1 side open	2 sides open	3 sides open	4 sides open	1 side open	2 sides open	3 sides open
IEEMA Member Exhibitor in immediate past 3 editions of ELECRAMA or Distribuelec/Buildelec or E3 (in INR)	10500	11550	12075	12600	11000	12100	12650
Other IEEMA Members (in INR)	11000	12100	12650	13200	11500	12650	13225
Non IEEMA Members (in INR)	11500	12650	13225	13800	12000	13200	13800
Foreign Participants (in USD)	175	190	200	210	200	220	230
Premium Location Charge	Applicable if you opt for select stalls				Additional @ 5% of stall charges		
Early Bird Discount	For confirmed booking with payment on or before 30.09.2023				10%		
Volume Discount	On booking 21 sqms and above in shell scheme and 40 sqms and above in bare space				5%		
Note: 1. No Discount is applicable on SME tariff 2. IEEMA Member exhibitor discount applicable only with zero outstanding for previous participation							
Payment Schedule							
Date	Booking amount	Second Instalment	Final Instalment				
Booking on or before 30.09.23	20%	30% by 15-11-2023	50% by 15-12-2023				
Booking From 01-10-2023 to 15-11-2023	50%		50% by 15-12-2023				
Booking From 16-11-2023 onwards	100%						
GST @18% is payable with each installment.							

BENEFITS

- Early bird discount
- Volume Discount
- SME Scheme shortly

GLIMPSES of the past

92%

Exhibitors want to participate in next edition.

88%

Exhibitors said the quality of attendees met or exceeded their expectations

95%

would like to visit this kind of an exhibition again.

Feedback from the past few editions

90%

Visitors favorably compared the quality of the exhibition over other industry events.

98%

Visitors said the quality of the exhibitions met or exceeded their expectations.

ORGANISER

The Indian electrical industry is represented by Indian Electrical and Electronics Manufacturers' Association (IEEMA), which was established in 1948, comprising of all segments of electricity from source to socket i.e. generation, transmission, distribution to last mile connectivity/ usage and allied components & accessories. IEEMA members are also active in new energy space like EV components/ E-Mobility, Battery storage, Renewable Energy and Green Hydrogen value chain etc. More than 90% of the installed electrical equipment in the country have been contributed by IEEMA members. Combined turnover of the members is in excess of USD 50 bn exporting goods of over USD 10 bn.

Recognised as the first point of reference for anything pertaining to Power and Electrical Equipment, IEEMA plays a primary role to facilitate creation of a conducive environment for the growth of electrical industry by providing key services like Policy Advocacy. The Government officials laud IEEMA for its data backed representations. It also continues to represent the interests of its members, in consonance with National interest.

A prominent size and space is occupied by the Electrical Equipment and Machinery in the Capital Goods Sector, which is more than 45 percent of the entire Capital Goods Sector. The industry is 6.8% of the manufacturing sector in terms of value and 1.07% of the NDP. It also provides direct and indirect employment to 1.5 million people and over 5 million across the entire value chain.
